A Different View

There once was a man named Byrd.
When he talked, his was the word.
He'd walk down the hall,
and frighten us all,
Til silence was all that was heard.

There once was a lady named Sarah Jo,
Who talked to her plants to make them grow,
Until one day,
She was quite amazed,
When a plant turned around and said,
"Hello."

of the Faculty

There once was a man named Sid,
Who was known as the Physics kid,
He'd brightened this place,
with a smile on his face,
and a cheery word he would always bid.

There once was a man named Clem,
Who played handball down in the Gym,
He was not ashamed
of his powerful game,
Until the day Shackleford defeated him!!

Congratulations Class of '75.
If you are a senior graduating from high school this year you have:

been around the sun 18 times
spent 12 years in school systems
or 108 months
or 3,240 days in class (counting off for weekends, holidays, summer and hookey)
or 25,000 hours in class (counting off for lunch, recess, and tardiness)
or close to 50,000 hours studying (counting homework, field trips, and cramming for tests)
or approximately one-third of your waking life studying
which is roughly 1,440 times longer than it took God to create a new world from scratch.

Go thou and do likewise.
